

NBCC May 15, 2016 Drive The Bunganut Pig Dash

A slightly cool Sunday morning attracted 25 cars to Brentwood's Granny White Park for the start of our monthly drive. We had first timers, old timers, and possibly Alzheimersas Dave Bishop nearly missed us entirely and caught-up on our way over the first hill! For Carol and I, it was a great day since everyone seemed to have a good time and the club was quite gracious to our Ohio guests Ron & Yvonne (in my Bugeye) and my brother Pat with granddaughter Kaitlin (in her Mini) fresh of a "Tail of the Dragon" event.

With the exception of a few short stints on actual highways, the drive followed lots of twisty, shady (burrrrrr) Williamson County backroads along creekbeds, fields, and some amazing stretches of new "Mansions" in the wilderness. As rallymaster, I'd warned folks that the Riley would be slow and stinky on any hills, so JD Damon & Cindy wisely took position #2 with an air-filtered & conditioned Jag powerful enough to push us if needed.....in return I left no known pieces in the road for them to dodge.

Lined up on Hidden Valley Rdwith a few stragglers waaaaay in the distance!

Aside from my missing one turn onto Old Charlotte Pike and nearly causing a sequence of crashing Brit cars..... the trek offered but the pleasures encountered on pretty, no-traffic, twisty roads. No one confessed that the non-stop 2 hour drive caused bladder failure (though Blazer Rd might have!) but they politely queued up for restrooms immediately upon arrival at Franklin's Bunganut Pig Pub.

Parking at the PIG.

Sadly, I neglected to take any pictures of us eating outside while listening to live entertainment but it seemed a lovely ending for our event. The Pig has always been a favorite of the Longs as the food is very good and service isusually better when not being overwhelmed by 44 instantaneous customers! It did chill us out a bit (burrrr again!) under the trees, but all in all, a good day and our **THANKS** to those who joined us. Mike & Carol Long

The “route” is as below for any future, intrepid explorers.
