09) Traffic-attitude

No road is closed! The drivers have to observe strictly the Highway Code! Each driver is responsible for the safety of his car.

10) Duties of the participants

Each driver must have a valid driver-license. Their cars must be road legal for Europe, i.e. taxed, insured mot etc as appropriate and MG Owners are full responsible for this.

A Full service and spares, is suggested with tyres in excellent condition, as with the long driving days, heat and twisty mountain roads, they will be taking the strain.

Participants should be aware that they also need to be insured for travel – illness, breakdowns, accidents as this is an informal social event.

Participants confirm this on signing the nomination form.

The attachments of starting-numbers on the car can not be allowed during the whole event.

11) Rights of the organizer

The organizer may have to make changes, without notice or to cancel the meeting, if circumstances dictate, by unknowns i.e. landslides, bad weather, road closures etc etc and his decision is final. He has the right to issue some directives which will be obligatory like the present regulation and / or to change the rules. It means: the right to change the rules is reserved.

12) Liability

In case of Classic/Veteran Cars - meetings it isn't to be used to made protests, so we can not accept them. The course of law is out of the question. The organizer of the meeting declines each liability for each type of damage versus the drivers, driver's mate, competitors and participants. This is valid before, during and after the meeting. That is the reason why each person participates on the meeting at their own risk. They are responsible under civil and penal law for each kind of damage which is caused by themselves or by their cars. In case of a damage which happens in connection with the meeting, the participants renounce for themselves and their family at the right to call up a law-court, at any type of minor offence or recourse against the organizer, the club and his members, authorities, voluntary helpers and all types of people which are connected with the meeting. This means in short words: No right to claim the organizer, because each participant is fully responsible by himself for his actions and his car.

13) Organizer's Directives during the event

Participants have to follow the directives of the Organizer or of one of his Authorizers. The defiance of the directives can compromise the security of everybody and therefore the organizer has the right to rule out from the event the involved participant.
